

BES 516-324-S49-C  
BES01AW

PNP  
NO  
flush mountable

PX2012

**Electrical data:**

|   |                    |
|---|--------------------|
| Connection                                  | Connector S49 (M8) |
| Electrical type                             | DC                 |
| No-load supply current damped               | 9 mA               |
| No-load supply current undamped             | 3 mA               |
| Operating frequency (f)                     | 3000 Hz            |
| Voltage drop max. static                    | 2,5 V              |
| Off-state current max (I <sub>r</sub> )     | 20 µA              |
| Ripple max. of U <sub>e</sub>               | = 15 %             |
| Supply voltage max. (U <sub>b</sub> )       | 30 V               |
| Supply voltage min. (U <sub>b</sub> )       | 10 V               |
| Time delay before availability              | 20 ms              |
| Switching element function                  | NO                 |
| Rated operational voltage (U <sub>e</sub> ) | 24 DC V            |
| Load current capacity (I <sub>e</sub> )     | 200 mA             |
| Utilization category                        | DC 13              |
| Hysteresis max (H)                          | 15 %               |
| Switching output                            | PNP                |

**General data:**

|                                     |                    |
|-------------------------------------|--------------------|
| Output indication                   | yes                |
| Short circuit protected             | yes                |
| Protected against polarity reversal | yes                |
| Degree of protection IP             | IP68 per BWN Pr 20 |
| Insulation class                    | 2                  |
| Approval                            | CE,c_ul_us         |

**Mechanical data:**

|  |                            |
|--|----------------------------|
| Mounting                                   | flush mountable            |
| Sensing face material                      | PA 12                      |
| Rated operating distance (s <sub>n</sub> ) | 1,5 mm                     |
| Housing material                           | corrosion resistance Steel |
| Repeat accuracy max. (R)                   | 5 %                        |
| Diameter                                   | M8x1 mm                    |
| Ambient temperature max                    | +70 °C                     |
| Assured operating distance                 | 0...1,2 mm                 |
| Ambient temperature min                    | -25 °C                     |
| Degree of pollution                        | 3                          |
